Whatever or whomever you need, antiques, buttons, carpenters, dentist, they're all conveniently listed with name, address, and phone number. Make it a habit to look in the Yellow Pages.

Emergencies

An emergency may place thousands of people in peril; it may involve only an individual. The smell of smoke or the sound of prowlers in the home may create a crisis as real as those of flood, hurricane or earthquake.

All emergencies alike place a premium on communication facilities by which aid may be summoned swiftly. Every telephone has a potential value far outweighing that which is measured by its actual use, because it stands ready even for the emergencies which may never arise, but which are ever-present possibilities.
